## Tech Skills

- Javascript
- Vue
- NodeJS
- React
- MongoDB
- Angular
- Express
- HTML & CSS/SCSS
- REST APIs
- MVC
- VueX
- Redux
- Typescript
- Rxjs

## Languages

- Hebrew - Native Proficiency
- Englush - Full Professional Proficiency
- Arabic - Professional Army Proficiency

## Education

**Coding academy - Bootcamp**
Jan 2023 - May 2023
4.5 Months - 640 Hours

A 640-hour bootcamp where I learned web development from the ground up.
As part of my coursework, I received intensive training in HTML, CSS, JavaScript, as well as several popular frameworks, such as React, Vue, and Angular.

Additionally, I learned how to build scalable and efficient back-end applications using MongoDB and Node.js.

Hands-on projects and real-world simulations provided me with a solid foundation in full-stack web development and the skills needed to succeed.

## Experience

**Chief Operation Officer and Co-Founder Gravitex**
Feb 2020 - Nov 2022

Over the last three years, I have operated a successful advertising agency in Israel and the United States.
I grew my business from a few clients to dozens during Covid19, and I hired three more employees as well.

Through the learning system I developed for the employees, they increased client retention at the company.
As a result of the campaigns' success, those clients created new jobs within their organizations.

- Clients management
- Clients recruitment
- Employees training
- All marketing aspects - Google ads, Google analytics, Facebook ads, Landing pages, Outbrain/Taboola, Copy, Creatives, SEO, Website management, Suppliers management, newsletter, PR.
- Domain hosting, platforms account creation and management.
- Business Development
